## REPORT OF THE AUDITORS.

We, the Auditors, duly elected to settle and adjust the Public Accounts of the county of Lancaster, do report, that we have, to the best of our skill and abilities, examined the foregoing accounts and the vouchers thereto belonging and find, agreeably to the report of the Treasurer, that the sum of twelve thousand five hundred and five dollars and sixty-three cents, is the amount of outstanding County Taxes, for the years 1832, 1831 and 1830—and also, that the sum of six thousand and twenty-five dollars and one cent, is outstanding for the years 1822, 1823, 1824, 1825, 1826, 1827, 1828 and 1829, the payment of which is considered *doubtful*. We would here recommend that measures be immediately taken to reach to the county whatever part may be recoverable.

We would remark, that the balance due from the estate of Henry Brenneke, Esq. deceased, a former Treasurer, of five hundred and eighty dollars and ninety-eight and a half cents, has not yet been paid over to the Treasury.

We would also remark, that the remainder of the balance due from John H. Duchman, Esq. late Treasurer, of seventeen hundred and seventy dollars and ninety-nine and one fourth cents, has been paid over ; for the payment of which, he has produced the receipt of the present Treasurer.

We do also report, that the numbers 36, 221, 390, 412, 519, 520, 570, 596, 597, 598, 599, 600 and 605, in the list of Commissioners' Orders, were not presented for payment in 1832, and the amount has not been charged in the foregoing account.

Therefore, we further report, that there was a balance due from J. F. Hinitsh, Esq. the late Treasurer, on the seventh instant, of the sum of two thousand two hundred and fifty-four dollars and seventy-seven cents, (\$2,254 77) for the payment of which he has produced the receipt of Zephaniah McLenegan, Esq. the present County Treasurer.

Witness our hands, at the Commissioner's Office, this nineteenth day of January, A. D. one thousand eight hundred and thirty-three.

## REMARKS BY THE AUDITORS.

We are happy to find that the Commissioners and their subordinate officers shew a commendable zeal to guard the County against impositions, and that a system of reform, to some extent, has been introduced into the management of its affairs. Something, however, we think still remains to be done. It will be seen, by a statement accompanying these papers, that there is a large amount of outstanding Taxes. We think there should be no such account to exhibit—that there should be no Taxes outstanding at the end of each year. It appears by a reference to the statement of the Taxes received that nine out of the twenty-seven Collectors, for the last year, have settled and paid off their duplicates in full, and there can be no doubt but that the others, with the same exertions, might also have settled theirs. Transcripts of balances due by Collectors ought to be carefully entered up according to law, in order that they may be a lien on their estates. And we would recommend and urge it upon the Commissioners and Treasurer, that in all cases where the respective duplicates are not settled within the year in which they are issued, that then process immediately be issued to compel their settlement, without respect to persons. If the Commissioners, when they issue the duplicates, would give public notice that such would be their course, could not reasonably be deemed a hardship.

We would wish to call the attention of the people, and of the county authorities particularly, to the subject of our County Jail. It will be seen that the maintenance of prisoners in the Jail forms a heavy item of expenditure. By a proper arrangement, this, we believe, might be avoided. It has been suggested that, with a small expense, workshops might be erected in the Jail yard, and such arrangements made so that all those convicted of petty offences might be usefully and profitably employed, whereby the county might be relieved from the expense, and the cause of morality promoted. By the present system we, in a manner, publicly encourage sloth and idleness. Our prison is a complete school of vice and immorality, whereas humanity would dictate that the unfortunate inmates should, if possible, be led into habits of industry, by which they might be enabled to earn an honest living. The abuses are the result of the system; no blame can be alleged against the Sheriff or Keeper.

With respect to our Poor House establishment, we wish to make some observations. This establishment is still an enormous burthen to our county, taking into consideration that one of the best Farms in the county belongs thereto. It is our opinion some of the expenditure may be reduced, if measures were taken, that if possible all wearing apparel were manufactured at the establishment, and if a surplus could be produced in any manufacture this would go to reduce the general expenditure.

Our fearful item of expense might be considerably reduced, which is Wages. Why must the inmates have this soul and body destroying beverage in so large a quantity? The use of spirituous liquors is confessedly the chief cause of pauperism in our county. It is our opinion they should be none allowed except on particular occasions, and then but sparingly. We recommend to the Board of Directors to use the strictest economy in all respects. It strikes us that a good deal may be saved by getting Groceries from Philadelphia, such as Sugar, Coffee, Molasses, Salt, &c. To buy these articles from wholesale merchants, and haul them with their own team, would be a saving in the carriage, and also in the price of goods.
